Essentiality Certificate

Most of the posts sanctioned by Government in various Health Departments against the vacancy of Nurses remain vacant especially in rural/difficult areas due to critical shortage of Nurses-Human Resources availability in the state. The short fall of nurses is estimated to be 80% and this affects the coverage and quality of health services being provided by the Government to its citizens. The reason behind this is non availability of enough seats in nursing courses. By the enhancement of seats in nursing institution, it will definitely improve the nurse man power in the state by producing diploma, graduate and post-graduate professionals which will minimize the deficiency of qualified nurses/faculty.
